Assessed Material Library

V1.0

19 October 2026

Material	Assessment Date	Product Scope	Conditions
Adhesive	March 2026	Refillable product systems in scope	
Aluminium, average	March 2026	Refillable product systems in scope	Must contain 30% recycled content
Aluminium, primary	March 2026	Refillable product systems in scope	
Aluminium, recycled	March 2026	Refillable product systems in scope	Must contain 100% recycled content
Bamboo	March 2026	Refillable product systems in scope	
Brass	March 2026	Refillable product systems in scope	
Corn starch foam	March 2026	Refillable product systems in scope	
Corrugated Box	March 2026	Refillable product systems in scope	
Glass (white)	March 2026	Refillable product systems in scope	
HDPE	March 2026	Refillable product systems in scope	
LDPE	March 2026	Refillable product systems in scope	
LDPE foam	March 2026	Refillable product systems in scope	
Magnet	March 2026	Refillable product systems in scope	
Neodymium	March 2026	Refillable product systems in scope	
Nylon	March 2026	Refillable product systems in scope	
Paper	March 2026	Refillable product systems in scope	
Paperboard	March 2026	Refillable product systems in scope	
PET-amorphous	March 2026	Refillable product systems in scope	
PET-bottle grade	March 2026	Refillable product systems in scope	
Polyoxymethylene (POM)	March 2026	Refillable product systems in scope	

Polypropylene	March 2026	Refillable product systems in scope	
Recycled containerboard	March 2026	Refillable product systems in scope	Must contain 100% recycled content
Recycled glass	March 2026	Refillable product systems in scope	Must contain 100% recycled content
Recycled HDPE	March 2026	Refillable product systems in scope	Must contain 100% recycled content
Recycled PET, bottle grade	March 2026	Refillable product systems in scope	Must contain 100% recycled content
Recycled plastic (mixed)	March 2026	Refillable product systems in scope	Must contain 100% recycled content
Silicone	March 2026	Refillable product systems in scope	
Stainless Steel	March 2026	Refillable product systems in scope	Must contain at least 30% recycled content
Synthetic rubber	March 2026	Refillable product systems in scope	
Synthetic rubber sponge	March 2026	Refillable product systems in scope	
Tissue paper	March 2026	Refillable product systems in scope	Must contain at least 50% recycled content
Zinc	March 2026	Refillable product systems in scope
